RENOVATIONS APPLICATION FORM

As per section 65(A) of the Strata Titles Management Act owners proposing to undertake renovations to common property must first obtain approval off the Owner's Corporation via the Strata Committee. While not all renovations will affect common property, the majority do as it is virtually impossible to renovate main parts of your apartment without affecting common property in some way. It is therefore best to seek approval for all renovation work which will ensure the work is carried out to the required specifications to avoid unnecessary costs and inconvenience to other residents.

The main types of renovations that require approval are:

- Kitchen renovations;
- Bathroom and laundry renovations;
- Installation of air-conditioning;
- Installation of floorboards, tiles or other hard flooring;
- Installation of fly screens; and
- Balcony and outdoor works including painting the balcony, replacing tiles or light fittings and installing blinds or a pergola.

The following items do not require approval:

- Replacement of carpet; and
- Painting the internal walls of an apartment.

Should works be undertaken without approval further action may be taken by the Owner's Corporation to remove the installation or a by-law established putting future apartment buyers on notice that the works are not approved.

Please note that certain types of renovations that significantly change common property or are of a high cost may require a special by-law that makes the owner legally responsible for the future maintenance and repair of the work. Types of renovations that may require a by-law include removal of any walls or installation of a new ceiling, re-arranging the configuration of the apartment, any installation that affects the visual appearance of the building and any installation that is installed on common property. You will be advised if a by-law is required shortly after submitting your application, in such instance the cost of the by-law must be covered by the applicant and approval of your renovation may need to wait until the next Executive Committee meeting or Annual General Meeting for approval by all owners.
